- Certificate of Appreciation - Volunteer, DELTA 3.0

ADDITIONAL INFORMATION

- 2nd Year Engineering Student
- Actively involved in various coding and development projects.
- Strong problem-solving skills and a passion for technology.

PROJECTS

PROJECT TITLE: [EVENT BOOKING]

- **Description:** The idea is about event booking, where you can reserve the date on which we will take your photos and videos of your experiences. The occasions could be a birthday celebration, pre- or post-marriage shower. To have your events photographed, simply reserve a date or get in touch with us via our website. For front-end development, I utilized PHP and JavaScripts; for styling, I used CSS; and for database recording, I used MySQL. When customers reserve a date, we attend their event and take pictures.
- **Skills Used:** PHP, JavaScript, CSS, MySQL
- **Tools:** VS Code, xampp.
- **link:** <https://github.com/Rajeshp2005/Event-booking>
